

Example text outside R code here; we know the value of pi is 3.1415927.

```
set.seed(1213) # for reproducibility
x = cumsum(rnorm(100))
mean(x) # mean of x

## [1] -1.939758

plot(x, type = 'l') # Brownian motion
```

Other text outside R code here.
